Balanced Assessment
District staff will apply the basic principles of quality classroom assessment by differentiating between assessment types in a Balanced Assessment System and using an Assessment Inventory Tool to analyze their own assessments.

ELA
District staff will increase their knowledge of the Illinois Learning Standards (ILS) for English Language Arts incorporating the Instructional Shifts by interacting with tools, resources, and strategies as they work to improve and align their curriculum.

CIP
...provides awareness of all the Foundational Services while assisting districts in assessing needs and designing, implementing, and monitoring plans for improvement.

Math
District staff will increase their knowledge of the Illinois Learning Standards (ILS) for Math incorporating the Instructional Shifts by interacting with tools, resources, and strategies as they work to improve and align their curriculum.

Science
District staff will increase their knowledge of the Illinois Learning Standards (ILS) for Science (NGSS) incorporating the Instructional and Conceptual Shifts by interacting with tools, resources, and strategies as they work to improve and align their curriculum.

Family Engagement
District staff will build their capacity in developing effective partnerships with families which is linked to learning and healthy development.

Teacher Evaluation
District teams will learn about different growth models and implementing the student growth component, rules and regulations for Joint Committees, the legislative options for districts, and the three types of assessments available when making student growth calculations.
