

## **Preparation Activities Planner**

Preparation activities encourage students to take specific actions to prepare for the future. The following topics could form the basis for a series of lessons, activities or projects throughout the year. Choose a few topic areas to help prioritize planning and to develop next steps for implementation.

College Preparation				
Description of Topics	Ideas for Implementation	Who is responsible?	Resources Needed	
☐ Academic planning/study skills: Students need help creating an academic plan or developing skills such as listening, note taking, reading and vocabulary building.				
☐ Leadership/teamwork social skills: Students need to know how to be better leaders and team members, as these are essential to the learning experience and success in the future.				
☐ College basics: Students should become more familiar with and ready for college by learning about college culture and the college admissions process.				
☐ College test preparation:  Many colleges and universities require students to take a test for admissions.				
☐ College affordability: Students should develop financial literacy skills (e.g., budgeting) and learn about financial aid and scholarship resources.				
☐ Career research: Programs can provide strategies, time and resources to help students navigate the career search.

☐ Work or volunteer experience:  Programs can help students get work experience and skills as they engage in job shadowing, apprenticeships, and internships or serve a community need together.				
☐ <b>Job application process:</b> Help students learn the basics of the job application process, such as filling out an application, writing a resume and interviewing. These skills can prepare students to find jobs in the future.				
☐ Workplace skills: Help students develop positive attitudes toward work and understand the expectations and behaviors of the workplace to prepare them for success in their careers.
